

Similar Systems Survey

*A partnership
between NRWA,
USDA RD and rural
communities*

DATA

Information requested includes:

- System Characteristics
- Last Rehab/Planned Rehab System Needs/Plans
- Revenues
- Total & Residential User Counts
- Residential & Total Volumes
- Wholesale Information

COLLABORATION

Most information requested is already public information. NRWA shares information collected with USDA only and with no other outside sources.

YOUR INPUT MATTERS!

Information collected is used by Rural Development when processing applications and completing underwriting. Additionally, this information helps influence the amount of grant and interest rate for which our applicants may qualify. Regulations require that the agency not subsidize a system's costs to a level that is lower than other systems similar in nature.
